

# Awareness of Environment Level 1 - Lesson Plan

Key Points to Cover:

- 1 – Plants
- 2 – Trees
- 3 – Wild Flowers

Supplies Suggested:

Bring examples of different leaves from plants and trees. There are plant and tree books that identify what the plants are and give you many of the different traits about the trees, plants and wild flowers.

Activities to Reinforce Lesson:

Take a hike in and around where you meet to identify the different plants, trees and wild flowers in that environment.

Take a hike at a state park and identify the same as above.

Devotion:
